The village of Tarentum had suddenly assumed that bustling air, which is a peculiar characteristic of many of the west-: 3 00 ern seulements. The oldest inhabitant by which we are to understand one of five y ars continuance, had never seen the lown in so great a ferment, since the day in which it was laid out and sold in squares and sites to the highest bidder. James Arnot was not a general favorme in the village. That he was superior to mest of the inhabitants, was admitted by all; yet they could have borne with that, had it not induced him to shun the low sports, and noisy merrament, in which they indulged. This acquired, if not natural superiority, together with the adconurous life he had led, had imparted a degree of stermess to his character; and as he was nearly ten years the senior of Clara Menard, all who knew her were slow to believe that she had pledged him her heart and hand. "IIIS is an entirely new and novel Lamp,

combining the following advantages:
Any kind of COMMON GREASE may be used in grease. Pure bolling oil is sent to the flame, which makes the burners give a far better light than with oil partially warmed. A wick two inches long will last a month. They rarely need snuffing, because the oil being sent to the flame at pleasure, the wick is constantly full of hot oil. They save 33 per cent. of the expense and give a better light with a wick of the same size, than any hard or Oil Lamp now in use. They hold lard and oil enough to last a week; hence they require filling but once a week. As the weight of the oil is at the bottom, and the better light they are not satisfy anger and the weight of the oil is at the bottom top being light, they are not easily upset, and should they be, little or no grease will spill:

Dyspepsia. Scrofula & Skin Diseases DR. GEOGHEGAN, (a graduate of the University of Louisville, and a Practitioner of high standing,) after many years of hard study and numerous experiments, has succeeded in obtaining an essential property from the Hydropiper, which, combined with other Vegetable ingredients, set forth in his published recipe, forms a most Valuable and Efficacious Remedy for many Chronic Diseases. Unlike Sursaparilla, It is quick in action, the first bottle often producing wonderful results, as In the case of the negro girl of Mrs. Simmons, of Louisville, who was

Relieved of Blinchess in One Week. This is no humbug, no catch-penny, neither ls it a nostrum, as The Recipe Accompanies Fach Bottle.

That it is a most Valuable Medicine is evideat from the fact of its being

Prescribed by Physicians, And from the numerous testimonials from the first citizens and Physicians of Kentucky. In short, it has excited the wonder and admiration of all who used it, an it now stands at the head of all who used it, and it now stands at the near of all who used it, and it now stands at the near of all Remedies for the cure of the following Discourses:
